Independent Auditor's Report

August 6, 2019

Honorable Mayor and
Members of the City Council
City of Redwater, Texas

Members of the Council:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Redwater, Texas (the City) as of and for the year ended September 30, 2018, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Redwater, Texas as of September 30, 2018, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4-10, budgetary comparison information on page 37, TMRS schedule of changes in net pension (asset) liability and related ratios on page 38, and TMRS schedule of pension contributions on page 39 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 6, 2019, on our consideration of the City of Redwater, Texas' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Redwater, Texas' internal control over financial reporting and compliance.

*City of Redwater, Texas
Management's Discussion and Analysis
For the Year Ended September 30, 2018*

The Management's Discussion and Analysis (MD&A) for the City of Redwater, Texas is designed to:

1. Assist the reader in focusing on significant financial issues;
2. Provide an overview of the City's financial activities;
3. Identify changes in the City's overall financial position and results of operations and assist the user in determining whether financial position has improved or deteriorated as a result of the year's operations;
4. Identify any significant variations from the original, amended, and final budget amounts and include any currently known reasons for those variations that are expected to have a significant effect on future services or liquidity; and
5. Identify individual fund issues or concerns.

The information contained within this MD&A should be considered only as part of a greater whole. The readers of this statement should take time to read and evaluate all sections of this report, including the footnotes that are provided in addition to this MD&A.

Overview of the Financial Statements

The MD&A requires supplementary information that introduces the reader to the basic financial statements and provides an overview of the City's financial activities. The City's basic financial statements consist of the following components:

1. Government-wide financial statements,
2. Fund financial statements, and
3. Notes to the financial statements.

A general description of the components of the basic financial statements follows.

Government-Wide Financial Statements

The Government-Wide Financial Statements are designed to present the financial operations of the City as a whole in a format similar to private sector companies. All governmental and business-type activities are consolidated into columns which add to a total for the Primary Government. If the City determines that presentation of a component unit (which are other governmental units for which the City can exercise significant influence or for which the Primary Government financial statements would be misleading if component unit information is not presented) is necessary to allow the reader to determine the relationship of the component unit and primary government, the component unit information is presented in a separate column of the financial statements or in a separate footnote.

The focus is on the government-wide (entity-wide) Statement of Net Position and Statement of Activities to give the reader a broad overview of the City's financial position and results of operations.

a) The Statement of Net Position presents information on the City's assets and liabilities using the accrual basis of accounting, in a manner similar to the accounting used by private business enterprises. The difference between the assets and liabilities is reported as net position. Over time, the increases or decreases in net position (and changes in the components of net position) may serve as a useful indicator of whether the financial position of the City is improving or weakening. Although the focus of this MD&A will be on the analysis of the overall changes to net position, the reader should refer to Note A - Significant Accounting Policies for an explanation of the components of net position.

b) The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. The format for the Statement of Activities presents the expenses for each function (administrative, police protection, fire protection, public works and sanitation) reduced by the Program Revenues (charges for services, operating grants and contributions, and capital grants and contributions) directly related to each respective function, to determine net costs of each function. The net costs of each function are normally covered by general revenues.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related and legal requirements. The City of Redwater, Texas uses two categories of funds to account for financial transactions: governmental funds and proprietary funds.

Governmental funds are used to account for most of the basic services and projects reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on how money flows into and out of those funds and the balances that are left at year-end that are available for spending. These funds are reported using the modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. The City of Redwater, Texas' governmental funds include the General Fund for accounting for the City's basic services.

The Proprietary Fund accounts for water and sewer services for the City of Redwater, Texas. Enterprise funds are used to account for the same functions as business-type activities presented in the government-wide financial statements, but the fund presentation provides more detail.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, there are differences in the information presented for government funds and for governmental activities in the government-wide financial statements. Review of these differences provides the reader of the financial statements insight on the long-term impact of the City's more immediate decisions on the current use of financial resources. We describe the differences between government-wide financial statements (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in reconciliation schedules following each of the fund financial statements.

Notes to the Financial Statements

The Notes to the Financial Statements, in particular Note A - Significant Accounting Policies, present the changes in presentation and reporting required under the GASB 54 standard. When reviewing this MD&A, the reader should also refer to and review the Notes to the Financial Statements, as well as the Government-Wide and Fund Financial Statements.

City Highlights

Net position balance at September 30, 2018 in the governmental activities (including the General Fund) decreased from \$798,883 to \$792,347. The business-type activities (consisting of the City's water and sewer) net position balance decreased from \$1,465,797 to \$1,372,356.

- For governmental activities, the total net investment in capital assets (after subtracting out debt owed on capital assets) decreased from \$451,126 to \$410,856.
- For business-type activities, the total of net investment in capital assets decreased from \$1,065,243 to \$955,592.
- For business-type activities, the City's long-term debt at September 30, 2018 increased from \$1,198,000 to \$1,710,960.
- The most significant continuing revenue sources for governmental activities of the City consisted of \$50,535 in charges for services, \$51,699 in property tax and related revenues, \$25,302 in franchise fees, and \$52,305 in sales tax revenues.
- Charges for business-type activities of the enterprise fund totaled \$869,584.

Government-Wide Financial Analysis

Statement of Net Position

Included is a Statement of Net Position for the City of Redwater, Texas. The format allows the reader to view the overall financial position of the City.

City of Redwater, Texas Net Position

Governmental Activities - Statement of Net Position

The major component of the current and other assets category consists of cash, cash equivalents, and certificates of deposit of \$419,250. The balance in this category comprised of various receivables (amounts due) for taxes and for revenues due from intergovernmental agencies. The total for cash, cash equivalents, and certificates of deposit reflects the City's past performance in meeting budgetary goals and the accumulation of resources for future needs of the City.

Capital assets totaling \$410,856 (net of accumulated depreciation) is the largest component of assets and represents the City's investment in capital assets necessary to provide services to citizens of the City of Redwater, Texas. The major categories of fixed assets (land, buildings, machinery and equipment, vehicles, and parks) reflect the type services currently provided to the City's residents.

Business-Type Activities - Statement of Net Position

For business-type activities (utility fund), there are three major components of current assets. Unrestricted cash, cash equivalents and certificates of deposit, totaling \$147,627 at fiscal year-end, is available to support current operations, long-range improvement of the utility system, and future debt requirements. Restricted cash and cash equivalents total \$299,155. Accounts and unbilled receivable balances of \$124,846 represent outstanding water and sewer billings at fiscal year-end.

Capital assets totaling \$2,666,551 (net of accumulated depreciation) represent the City's investment in equipment, vehicles, and systems and improvement for the water and sewer systems. Long-term debt outstanding consists of 1,710,960 for notes payable to support operations of the utility system. Other liabilities at fiscal year-end consist primarily of accounts payable, accrued expenses and other liabilities, and customer meter deposits payable.

Net investment in capital assets is the major component of net position for business-type activities (enterprise fund) at a total of \$955,592. Net position restricted for debt service totaled \$170,734. The balance of \$246,030 comprises Unrestricted Net Position.

Statement of Activities

A Statement of Activities for the City of Redwater, Texas is presented below listing the major categories of revenues and expenses for the fiscal year ended September 30, 2018 and 2017. An explanation of the components of this statement is included immediately following the table.

City of Redwater, Texas						
Statement of Activities

Government-Wide Review of Statement of Activities

The Statement of Net Position presents revenues, expenses, and changes in net position separately for governmental activities and business-type activities. The format allows for presentation of program revenues (charges for services, operating grants and contributions, and capital grants and contributions) followed by a listing of general revenues to support the City's overall governmental or business-type activities. Expenses are presented on a functional basis, with depreciation on fixed assets directly allocated to the related expense (general and administrative, parks, etc.).

Governmental Activities - Statement of Activities

As noted above, there are two categories of revenues on the Statement of Activities - program revenues and general revenues. Program revenues derive directly from the program itself or from parties outside the City's taxpayers or citizenry, as a whole; they reduce the net cost of the function to be financed from the government's general revenues. Program revenues are further divided into charges for services, operating grants and contributions, and capital grants and contributions. For governmental activities, the major revenues for the City in the charges for services are \$31,505 for refuse income, \$6,000 for public safety activities and \$2,100 for miscellaneous charges in general and administrative activities.

General revenues include all revenues not required to be reported as program revenues. All taxes are to be reported by type tax. For the City of Redwater, Texas, the major tax revenues are property tax and related revenues of \$51,699, franchise fees of \$25,302 and sales tax revenues of \$52,305. The General Fund transferred out \$21,418 to Water and Sewer fund to help pay for the new water sewer infrastructure on RIDC property.

Program expenses are presented in the above Statement of Activities by function and total \$168,114 for the current fiscal year-end. Revenues less expenses presented in this statement total to a decrease in net position of (\$6,536).

Business-Type Activities - Statement of Activities

Business-type activities provided by the City of Redwater, Texas consist of water and sewer. All revenues are in the category of program revenues, with the exception of interest income reported as general revenue. Program revenues for the current fiscal year in the charges for services subcategory consist of billings of \$869,584 for water and sewer. Revenues increased due to an increase in water usage from 2017 to 2018.

The City reports the total amount of expenses for operation of the utility system as \$990,385 for the fiscal year ended September 30, 2018. The change in net position (revenues less expenses and transfers) for the current fiscal year was a decrease in net position of (\$93,441). Water and sewer program expenses include \$192,744 of depreciation expense. Expenses increased in the current year due to more water purchased, more repairs and more interest paid on the new note.

Governmental Funds

At year-end, the City's governmental funds, consisting of the General Fund and the Capital Projects Fund reported combined fund balances of \$137,573 committed for capital improvement projects and \$246,354 as unassigned. Under the modified-accrual basis for fund financial statements, the emphasis is on accounting for current financial resources of the City. Assets consist primarily of \$395,557 cash and cash equivalents. Liabilities for the City consist primarily of accounts payable, accrued expenses and other liabilities and due to the Proprietary Fund.

The fund reporting format presents in the Statement of Revenues, Expenditures, and Changes in Fund Balance all revenue types followed by the expenses of the City, also presented on a functional basis. However, for the fund financial statements, the City reports only current year capital expenditures and does not report depreciation on capital assets. Principal payments on loans are reported only as a current year expenditure and not the related long-term loan liability as in the government-wide financial statements. The major revenue sources are similar to the government-wide presentation above, with additional detail provided for services for which the City receives a fee or charge for services (refuse and rental fees). The General Fund reports a decrease in revenues and other sources over expenditures and other uses by (\$46,202). Fund balance at the end of the current fiscal year for the General Fund was \$246,354.

The Capital Projects Fund reports an increase in excess of expenditures and other uses over revenues and other sources of \$79,326. Fund balance at the end of the current fiscal year for the Capital Projects Fund is \$137,573.

Proprietary Fund

The total amounts presented for the Proprietary Fund (utility funds for water and sewer services) are identical to the government-wide presentation. Statement of Revenues, Expenses, and Changes in Net Position, presents a more detailed listing of expenses than presented in the government-wide statements, pending implementation of financial reporting improvements to report activities of the water and sewer systems on a functional basis. The major operating expenses of these funds include \$204,707 for water contracts, \$214,451 for salaries and wages, and \$192,744 for depreciation expense. Non-operating revenues and expenses include \$747 in interest income and \$71,353 reported for interest expense and fees on bonds, notes and capital leases payable.

Capital Assets and Long-Term Debt

Capital Assets

At the end of the fiscal year 2018, the governmental activities had \$410,856 (net of accumulated depreciation) invested in a broad range of capital assets. During 2018, additions included a new computer and street signs.

The business-type activities had \$2,666,551 (net of accumulated depreciation) invested in capital assets. During 2018, the City purchased new AMI software and a new server at a cost of \$27,564 and a new AMI system at a total cost of \$298,123. Along with the new AMI system, the City also purchased \$191,243 in new meters for their water system. Other assets purchased by the City in fiscal year 2018 was a new mower for a cost of \$10,462, a new water line installed at a cost of \$14,058, and sewer improvements for a total cost of \$13,975.

More detailed information about the City's capital assets is presented in Note F to the financial statements.

Long-Term Debt

At year-end the City had \$1,710,960 in long-term outstanding notes payable in the business-type activities. More detailed information about the City's long-term liabilities is presented in Note G to the financial statements.

Budget and Actual Revenues and Expenditures

The City amended the General Fund budget during the year to decrease revenues in total and to decrease expenditures. The variance between budgeted and actual revenues for the General Fund is \$7,029. The variance between budgeted and actual expenditures for the General Fund is \$9,488.

Economic Factors

The City of Redwater, Texas's management approach is conservative, yet accommodating to economic development. Whenever possible, the Mayor and City Council actively pursue grants and other funding to provide more and better services for the City while relying on existing revenues and living within the budget. The City of Redwater, Texas finances long-term projects only when necessary. A major project for FY 2019 is the conversion to new accounting software. This software is cloud-based and employees can sign on from any computer, making it easy to access any time and almost anywhere. It was developed by CPAs, is very user-friendly, and will increase employee efficiency once all data is converted reconciled. UB software will also be converted in FY 2020. The City has also increased water and sewer rates significantly in FY 2019, to join the majority of the cities in Bowie County in contributing to Riverbend WRD's new water treatment facility. This facility will replace the Texarkana Water Utilities water treatment plant that is over 50 years old and outdated. The property tax rate adopted for fiscal year ending September 30, 2019 remained the same at \$0.188931.

Requests for Information

This financial report is designed to provide a general overview of the City of Redwater, Texas's finances and to demonstrate the City's accountability. If you have questions regarding this report or need additional information, contact the city hall at P.O. Box 209, Redwater, Texas, 75573. The phone number for the City is (903) 671-2775.

GOVERNMENTAL FUNDS
RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET POSITION
SEPTEMBER 30, 2018*

Total Fund Balance - Governmental Funds \$383,927

Amounts reported for governmental activities in the statements of net position is different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the governmental funds. At the beginning of the year, cost of these assets was \$982,035 and the accumulated depreciation was \$530,908. In addition, long-term liabilities of \$0 are not due and payable in the current period, and, therefore are not reported as liabilities in the funds. The net effect of including the beginning balances for capital assets (net of depreciation) and long-term debt in the governmental activities is to increase net position. 451,127

Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements but they should be shown as increases in capital assets and reductions in long-term debt in the government wide financial statements. The net effect of including the 2018 capital outlays of \$1,352, plus debt principal payments of \$0 is to increase net position. 1,352

The 2018 depreciation expense increases accumulated depreciation. The net effect of the current year's depreciation is to (decrease) net position. (41,623)

The net effect of including the beginning balance for pension assets (net of the liability) in the governmental activities is to (decrease) net position. (3,046)

The net effect of change in pension liability and the net effect of the change in deferred outflows in the governmental activities is to increase net position. 610

Net Position of Governmental Activities \$ 792,347

CITY OF REDWATER, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2018

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Redwater, Texas (the City) was incorporated on October 20, 1941 and was reactivated in May of 1988 under the provision of the State of Texas. The City operates under a Council-Mayor form of government and provides the following services as authorized by its state statutes: public safety and general administrative services. The city owns and operates a water and sewer system.

The accounting and reporting policies of the City relating to the amounts included in the accompanying basic financial statements conform to accounting principles generally accepted in the United States of America applicable to state and local governments. Generally accepted accounting principles for local governments include those principles prescribed by the Governmental Accounting Standards Board (GASB), the American Institute of Certified Public Accountants in the Publication entitled Audits of State and Local Governmental Units and by the Financial Accounting Standards Board (when applicable).

GASB Statement 68, *Accounting and Financial Reporting for Pensions*, issued June 2012 was adopted for the year ending September 30, 2015. The City participates in the Texas Municipal Retirement System. This Statement establishes standards of accounting and financial reporting for defined benefit pensions and defined contribution pensions provided to the employees of state and local governmental employers through pension plans that are administered through trusts or equivalent arrangements (hereafter jointly referred to as trusts) in which:

- a. Contributions from employers and nonemployer contributing entities to the pension plan and earnings on those contributions are irrevocable.
- b. Pension plan assets are dedicated to providing pensions to plan members in accordance with the benefit terms.
- c. Pension plan assets are legally protected from the creditors of employers, nonemployer contributing entities, and the pension plan administrator. If the plan is a defined benefit pension plan, plan assets also are legally protected from creditors of the plan members.

GASB Statement 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, issued June 2015 was adopted for the year ending September 30, 2018. The City participates in the TMRS Supplemental Death Benefits (SDB) plan. The scope of this Statement addresses accounting and financial reporting for OPEB that is provided to the employees of state and local governmental employers. This Statement establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. Because the OPEB calculated amounts are immaterial for the City of Redwater, these amounts are not recorded in the financial statements.

Reporting Entity

The City's basic financial statement included the accounts of all City operations. The financial statements presented herein do not include agencies which have been formed under applicable state laws or separate and distinct units of government apart from the City of Redwater, Texas.

CITY OF REDWATER, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2018

In evaluating how to define the government, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in United States generally accepted accounting principles (GAAP). The basic, but not only, criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the government and/or its citizens, or whether the activity is conducted within the geographic boundaries of the government and is generally available to its citizens. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the government is able to exercise oversight responsibilities.

The component unit of the City is the Redwater Industrial Development Corporation (RIDC) and was created May 12, 1999, exclusively for the purposes of and to act on behalf of the City for the promotion and development of commercial, industrial, and manufacturing enterprises, and to promote and encourage employment and the public welfare pursuant to the Development Corporation Act of 1979, under which it was formed.

Overview of Financial Statements

The government-wide financial statements (the statement of net position and the statement of activities) report information on all of the activities of the City. The effect of interfund activity, within the governmental and business-type activities columns, has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given program and 2) operating or capital grants and contributions that restricted to meeting the operational or capital requirements of a particular program.

The financial statements include a "Management Discussion and Analysis" (MD&A) section providing an analysis of the City's overall financial position and results of operations, financial statements prepared using full accrual accounting for all the City's activities, and a change in the fund financial statements to focus on the major funds.

Fund Financial Statements

The City segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Separate statements are presented for governmental and proprietary activities. These statements present each major fund as a separate column on the fund financial statements.

Governmental Funds are those funds through which most governmental functions typically are financed. The measurement focus of governmental funds is on the sources, uses and balance of current financial resources. The City has presented the following major governmental funds:

General Fund - The General Fund is the main operating fund of the City. The fund is used to account for all financial resources not accounted for in other funds. All general tax revenues and other receipts that are not restricted by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures, fixed charges and capital improvement costs that are not paid through other funds are paid from the General Fund.

CITY OF REDWATER, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2018

Capital Projects Fund – The Capital Projects Fund account was set up for expenditures related to capital asset acquisitions and other improvements in the City.

Proprietary Funds are accounted for using the economic resources measurement focus and the accrual basis of accounting. The accounting objectives are determinations of net income, financial position and cash flow. All assets and liabilities are included on the Statement of Net Position. The City has presented the following major proprietary funds:

Water and Sewer Fund – The Water and Sewer Fund is used to account for operations for which a fee is charged to external users for goods or services and the activity a) is financed with debt that is solely secured by a pledge of the net revenues, b) has third party requirements that the cost of providing services, including capital costs, be recovered with fee and charges, or c) established fees and charges based on a pricing policy designed to recover similar costs.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for the proprietary funds include the cost of personal and contractual services, supplies and depreciation on capital assets. All revenues and expense not meeting this definition are reported as non-operating revenues and expenses.

Basis of Accounting and Measurement Focus

Measurement focus refers to what is being measured; basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

The government-wide statements and fund financial statements for proprietary funds are reported using the economic resources management focus and the accrual basis of accounting. The economic resources measurement focus means all assets and liabilities (whether current or non-current) are included on the statement of net position and the operating statements present increases (revenues) and decreases (expenses) in net total assets. Under the accrual basis of accounting, revenues are recognized when earned, including unbilled water and sewer services which are accrued. Expenses are recognized at the time the liability is incurred.

Governmental fund financial statements are reported using the current financial resources measurement focus and are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual; i.e., when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The City considers property taxes as available if they are collected within 60 days after year-end. A one-year availability period is used for recognition of all other Governmental Fund revenues. Expenditures are recorded when the related fund liabilities are incurred. However, debt service expenditures, excepts for interest payable accrued at the debt issuance date for which cash is received with the debt proceeds, as well as expenditures related to compensated absences and arbitrage are recorded only when payment has matured and will be payable shortly after year-end.

The revenues susceptible to accrual are property taxes, franchise taxes, licenses, charges for service, interest income and intergovernmental revenues. Sales taxes collected and held by the state at year-end on behalf of the government are also recognized as revenue. All other governmental fund revenues are recognized when received, as they are deemed immaterial.

Budget and Budgetary Accounting

The City Council adopts a budget each year by ordinances. As the year progresses, resolutions are adopted by the City Council for changes to the original budgeted amounts. The resolutions are incorporated into an ordinance at year-end to legalize any approved changes to the original budget.

CITY OF REDWATER, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2018

The Statement of Revenues, Expenditures and Changes in Fund Balance – Budget and Actual – General Fund presents a comparison of budgetary data to actual results. The General Fund utilizes the same basis of accounting for both budgetary purposes and actual results.

Cash and Investments

For purposes of the statement of cash flows, the City considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents. Cash includes demand deposit accounts and cash on hand. Investments consist of certificates of deposit, which are stated at cost, the approximated market value of the investments.

Restricted Assets

Restricted assets are assets whose use is subject to constraints that are either (a) externally imposed by grantors, contributors, or laws or regulations of other governments or (b) imposed by law through constitutional provisions or enabling legislation. When both restricted and unrestricted resources are available for use, it is the City’s policy to use restricted resources first and then unrestricted resources as they are needed. The bond reserve requirement of \$163,251 is met and no additional deposits are required. The bond reserve for the 2003 and 2005 bonds of \$21,047 and \$13,012, respectively, are met and no additional deposits are required.

The restricted assets at September 30, 2018 are as follow:

<u>Type of Restricted Asset</u>	<u>Business-type Activities</u>	<u>Component Unit</u>
Meter Deposits	\$ 111,512	\$ -
Maintenance Fund	71,716	-
Bond Reserve Fund	63,848	-
2003 Debt Service Fund	23,201	-
2005 Debt Service Fund	15,411	-
2017 AMI Loan Debt Service Fund	4,787	-
Maintenance Fund-Investments	8,680	-
Economic Development	-	66,438
Total Restricted Assets	\$ 299,155	\$ 66,438

Accounts Receivable

The accounts receivable at September 30, 2018 are as follows:

<u>Accounts Receivable</u>	<u>Governmental Activities</u>	<u>Business-type Activities</u>	<u>Total</u>
Franchise tax	\$ 6,898	\$ -	\$ 6,898
Property tax	14,948	-	14,948
Interest	23	6	29
Customer billed	-	100,966	100,966
Allowance for doubtful accounts	(14,210)	(2,264)	(16,474)
Total Accounts Receivable, Net	\$ 7,659	\$ 98,708	\$ 106,367

*CITY OF REDWATER, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2018*

Capital Assets

Capital Assets, which include property, plant and equipment, are reported in the applicable governmental or business-type activities in the government-wide financial statements and in the fund financial statements for the proprietary funds. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at their fair market value on the date of donation. Repairs and maintenance are recorded as expenses. Improvements are capitalized. Interest has not been capitalized during the period of construction of capital assets. As of October 1, 2004, new infrastructure assets, such as roads, bridges, underground pipe (other than those related to utilities), traffic signals, etc., are required to be depreciated under GASB 34.

Depreciation is calculated by using the straight-line method. Estimated useful lives of assets are:

Buildings	5 - 20 years
Office Furniture and Equipment	5 - 10 years
Pumps and Treatment Equipment	5 - 20 years
Equipment and Tools	3 - 7 years
Line and Storage	10 - 50 years
Water meters	10 years
Sewer system	7 - 50 years

Long-Term Debt

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position.

Bond Issuance Costs

Bond and debt issuance costs are reported as expense in the year incurred.

Interfund Receivables and Payables

During the course of operations, numerous transactions occur between individual funds that may result in amounts owed between funds. These receivables and payables are classified as "due from other funds" or "due to other funds" on the fund-level statements. All interfund transactions between governmental funds are eliminated on the government-wide statements.

Interfund Transfers

Permanent reallocations of resources between funds of the reporting entity are classified as interfund transfers. For the purposes of the Statement of Activities, all interfund transfers between individual governmental funds have been eliminated. Transfers between governmental funds, business-type activities or the component unit have not been eliminated.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

CITY OF REDWATER, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2018

Pensions

In the government-wide financial statements and the proprietary fund types in the fund financial statement, for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the Fiduciary Net Position of the Texas Municipal Retirement System (TMRS) and additions to/deductions from TMRS's Fiduciary Net Position have been determined on the same basis as they are reported by TMRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Fund Equity

The Governmental Accounting Standards Board (GASB) has issued Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB 54). This Statement defines the different types of fund balances that a governmental entity must use for financial reporting purposes. GASB 54 requires the fund balance amounts to be properly reported within one of the fund balance categories as following:

Nonspendable fund balance – represents amounts that cannot be spent because they are either not in spendable form (such as inventory or prepaids) or legally required to remain intact (such as notes receivable or principal of a permanent fund).

Restricted fund balance – represents amounts with external constraints placed on the use of these resources (such as debt covenants, grantors, other governments, etc.) or imposed by enabling legislation. Restrictions may be changed or lifted only with the consent of resource providers.

Committed fund balance – represents amounts that can only be used for specific purposes imposed by a formal action of the City's highest level of decision-making authority, the Council. Committed resources cannot be used for any other purposes unless the Council removes or changes the specific use by taking the same formal action that imposed the constraint originally.

Assigned fund balance – represents amount the City intends to use for specific purposes as expressed by the Council or an official delegated with the authority.

Unassigned fund balance – represents the residual classification for the general fund or deficit balances in other funds.

In circumstances where expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, committed fund balance, assigned fund balance, and then unassigned fund balance.

Net Position

Net position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition or construction of those assets. Net position restricted for debt service consists of restricted cash accounts related to debt reduced by accrued interest payable.

NOTE B – COLLATERALIZATION OF DEPOSITS

Custodial Credit Risk for Deposit – Statutes authorize the City to invest in bank certificates of deposit, obligations of the U.S. Treasury and U.S. agencies, banker's acceptances repurchase agreements and commercial paper rated A-1 by Standard & Poor's Corporation or P- I by Moody's Commercial Paper Record. The City's policy is to invest in instruments or require collateral so as to not expose the City to credit, custodial credit, custodial concentration, interest rate, or foreign currency risks. Since the City complies with this law, it has no custodial credit risk for deposits.

CITY OF REDWATER, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2018

At September 30, 2018, the bank balances, including time deposits, were fully insured by FDIC at all financial institutions.

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the City to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit. Statutes authorize the City to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas; (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) Mutual Funds, (8) Investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Public Funds Investment Act (PFIA) governs the City's investment policies and types of investments. The City's management believes that it complied with the requirements of the PFIA and the City's investment policies.

NOTE C – PROPERTY TAXES

Property taxes are levied by October 1 and may be paid without penalty until January 31. Penalty and interest are then added to payments received February 1 through June 30. An enforceable lien is attached when property taxes become delinquent. City property taxes are recognized as revenue in the accounting period when they become susceptible to accrual, i.e., when they become both measurable and available to pay liabilities of the current period. Only property taxes available within 60 days from the end of the fiscal period are subject to accrual. The City accrued \$738 of delinquent property taxes at September 30, 2018.

The Bowie County Appraisal District bills and collects property taxes for the City of Redwater. The State of Texas Constitution limits the City's ad valorem tax rate for all purposes to \$1.50 per one hundred dollars of assessed valuation. Ad valorem tax revenue during the year ended September 30, 2018, was levied using a rate of \$0.188931 per one hundred dollars of assessed valuation. Based on 100% of estimated market value, the City has a tax margin of \$1.311069 per \$100 and could raise an additional \$359,981.36 per year from the present assessed valuation of \$27,457,087 before the limit is reached. The amount assessed for the 2017 tax roll was \$50,051.

NOTE D – INTERFUND TRANSACTIONS

Interfund balances are as follows as of September 30, 2018:

	Receivables (Due From)	Payables (Due To)
General Fund:		
Proprietary Fund	\$ -	\$ (38,069)
Component Unit	-	(2,236)
Proprietary Fund:		
General Fund	38,069	-
Component Unit:		
General Fund	2,236	-
Total	\$ 40,305	\$ (40,305)

CITY OF REDWATER, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2018

NOTE E – FINANCING AND RELATED INSURANCE ISSUES

In the normal course of business, the City is exposed to risks of loss from a number of sources including fire and casualty losses, errors or omissions by council members and employees, negligent acts by employees, automobile and mobile equipment accidents, and injuries to employees during the course of performing duties for the City.

The City attempts to cover these losses by the purchase of insurance. Currently the City purchases 100% of its risk-related insurance through the Texas Municipal League Intergovernmental Risk Pool. The City purchases insurance from the pool with annual maximum limits and to the extent of these maximum limits the City will incur no additional liability due to excess insurance purchases by the risk pool. The City would be liable for claims in excess of the policy limits. In management’s estimation, there are no current loss claims that exceed the insured maximum limits. Significant loss experiences could subject the City to significant premium increases.

There was no reduction in insurance coverage from the prior year and in management’s estimation maximum coverage limits are adequate.

NOTE F – CAPITAL ASSETS

Governmental activities capital asset activity for the year ended September 30, 2018, are as follows:

	Balance October 1, 2017	Additions	Deletions	Balance September 30, 2018

Business-type activities - All depreciation expense of \$192,744 recorded in the business-type activities was charged to the Water and Sewer Fund. The City purchased new AMI software and a new server at a cost of \$27,563 and a new AMI system for a total cost of \$298,123. Along with the new AMI system, the City also purchased \$191,243 in new meters for their water system. Other assets purchased by the City in fiscal year 2018 was a new mower for a cost of \$10,462, a new water line installed for a cost of \$14,058, and sewer improvements for a total cost of \$13,975.

The City returned old meters in fiscal year 2018 and received a credit of \$6,372, which reduced accounts payable at year-end.

NOTE H – DEFINED BENEFIT PENSION PLAN

Plan Description

The City of Redwater participates as one of 866 plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System (TMRS). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six-member Board of Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS's defined benefit pension plan is a tax-qualified plan under Section 401 (a) of the Internal Revenue Code. TMRS issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at www.tmr.com.

All eligible employees of the city are required to participate in TMRS.

Benefits Provided

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the city, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee's contributions, with interest, and the city-financed monetary credits with interest were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payments options. Members may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the member's deposits and interest.

Employees of the City of Redwater are eligible for retirement at age 60 with 5 years of service or at any age with 20 years of service. Employees contribute to the fund at the rate of 7%. The City matches dollar for dollar. The City match vests after 5 years of service.

Employees covered by benefit terms:

At the December 31, 2017 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	0
Inactive employees entitled to but not yet receiving benefits	1
Active employees	<u>7</u>
Total	8

*CITY OF REDWATER, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2018*

Contributions

The contribution rates for employees in TMRS are either 5%, 6%, or 7% of employee gross earnings, and the city matching percentages are either 100%, 150%, or 200%, both as adopted by the governing body of the city. Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employees for the City of Redwater were required to contribute 7% of their annual gross earnings during the fiscal year. The contribution rates for the City of Redwater was 4.35% and 3.34% for the calendar years 2017 and 2018, respectively. The City's contributions to TMRS for the year ended September 30, 2018 were \$6,006 and were equal to the required contributions.

Net Pension Liability

The city's Net Pension Liability (NPL) was measured as of December 31, 2017, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date.

Actuarial assumptions:

The Total Pension Liability in the December 31, 2017 actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.5% per year
Overall payroll growth	3.0% per year
Investment Rate of Return	6.75%, net of pension plan investment expense, including inflation

Salary increases were based on a service-related table. Mortality rates for active members, retirees, and beneficiaries were based on the gender-distinct RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment, with male rates multiplied by 109% and female rates multiplied by 103%. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements. For disabled annuitants, the gender-distinct RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment are used with male's rates multiplied by 109% and female rates multiplied by 103% with a 3-year set-forward for both males and females. In addition, a 3% minimum mortality rate is applied to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements subject to the 3% floor.

Actuarial assumptions used in the December 31, 2017, valuation were based on the results of actuarial experience studies. The experience study in TMRS was for the period December 31, 2010 through December 31, 2014. Healthy post-retirement mortality rates and annuity purchase rates were updated based on a Mortality Experience Investigation Study covering 2009 through 2011 and dated December 31, 2013. These assumptions were first used in the December 31, 2013 valuation, along with a change to the Entry Age Normal (EAN) actuarial cost method. Assumptions are reviewed annually. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income, in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. In determining their best estimate of a recommended investment return assumption under the various alternative asset allocation portfolios, GRS focused on the area between (1) arithmetic mean (aggressive) without an adjustment for time (conservative) and (2) the geometric mean (conservative) with an adjustment for time (aggressive). The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

CITY OF REDWATER, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2018

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return (Arithmetic)</u>
Domestic Equity	17.5%	4.55%
International Equity	17.5%	6.35%
Core Fixed Income	10.0%	1.00%
Non-Core Fixed Income	20.0%	3.90%
Real Return	10.0%	3.80%
Real Estate	10.0%	4.50%
Absolute Return	10.0%	3.75%
Private Equity	5.0%	7.50%
Total	<u>100.0%</u>	

Discount Rate: The discount rate used to measure the Total Pension Liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

Changes in the Net Pension (Asset) Liability:

	<u>Increase (Decrease)</u>		
	<u>Total Pension</u>	<u>Plan Fiduciary</u>	<u>Net Pension</u>

Balance at 12/31/2017	\$ 239,404	\$ 238,793	\$ 611

Sensitivity of the net pension liability to changes in the discount rate:

The following presents the net pension (asset) liability of the City, calculated using the discount rate of 6.75%, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.75%) or 1-percentage-point higher (7.75%) than the current rate:

CITY OF REDWATER, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2018

	Discount Rate (5.75%)	Discount Rate (6.75%)	Discount Rate (7.75%)
City's net pension (asset) liability	\$ 35,489	\$ 611	\$ (28,574)

Pension Plan Fiduciary Net Position:

Detailed information about the pension plan's Fiduciary Net Position is available in a separately-issued TMRS financial report. That report may be obtained on the Internet at www.tmrs.com.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended September 30, 2018 the city recognized pension expense of \$5,101.

At September 30, 2018, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 631	\$ 19,584
Changes in actuarial assumptions	4,679	-
Difference between projected and actual investment earnings	-	5,951
Contributions subsequent to the measurement date	6,233	-
	\$ 11,543	\$ 25,535

\$6,233 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ending September 30, 2018. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

	Net deferred outflows (inflows) of resources
2019	\$ (3,353)
2020	(3,719)
2021	(6,169)
2022	(6,552)
2023	(203)
Thereafter	(229)
Total	\$ (20,225)

Supplemental Death Benefits Fund

The City also participates in the cost-sharing multiple-employer defined benefit group-term life insurance plan operated by the Texas Municipal Retirement System (TMRS) known as the Supplemental Death Benefits Fund (SDBF). The city elected, by ordinance, to provide group-term life insurance coverage to both current and retired employees. The city may terminate coverage under and discontinue participation in the SDBF by adopting an ordinance before November 1 of any year to be effective the following January 1.

The death benefit for active employees provides a lump-sum payment approximately equal to the employee’s annual salary (calculated based on the employee’s actual earnings, for the 12-month period preceding the month of death); retired employees are insured for \$7,500; this coverage is an “other postemployment benefit,” or OPEB.

Your city offers supplemental death to:	<u>Plan Year 2017</u>	<u>Plan Year 2018</u>
Active employees (yes or no)	Yes	Yes
Retirees (yes or no)	Yes	Yes

Contributions

The City contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year; the intent is not to pre-fund retiree term life insurance during employees’ entire careers.

The City’s contributions to the TMRS SDBF for the years ended 2018, 2017, and 2016 were \$337, \$571, and \$488.

NOTE I – CONTRACTS AND PARTICIPATION AGREEMENT

The City executed a water supply contract with the City of Texarkana, Texas on March 7, 1978. The contract has been amended to change the terms and provisions of the original contract. The amendment also recognizes the establishment of the Riverbend Water Resources District which was created by the 81st Texas Legislature, codified in Title 6, Special District Local Laws Code, Subtitle L, Chapter 9601, effective June 19, 2009, to which, the City became a member in December 2011.

The City depends on the use of their wells for a portion of the City’s water supply. During the year ending September 30, 2017, the wells were closed down due to the cost of repairing and maintaining them. The wells are no longer cost effective to operate.

The City incurred \$198,483 of expenditures for water under the water supply contract for the year ending September 30, 2018. The amount incurred is based on actual water consumption. Membership fees paid to Riverbend totaled \$6,224 for the year ending September 30, 2018.

CITY OF REDWATER, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2018

NOTE J – DISCLOSURES OF REDWATER INDUSTRIAL DEVELOPMENT CORPORATION

The Redwater Industrial Development Corporation (RIDC) is a discrete component unit of the City of Redwater, Texas. The board of RIDC is appointed by the City Council. Its mission is to improve economic growth in the City of Redwater, Texas. A special sales tax was passed by the citizens of the City to support the RIDC. The sales tax is to be used for future economic development of the City, which are legally restricted to expenditures for certain purposes.

Cash and Deposits

Custodial Credit Risk for Deposit – Statutes authorize the City to invest in bank certificates of deposit, obligations of the U.S. Treasury and U.S. agencies, banker’s acceptances repurchase agreements and commercial paper rated A-1 by Standard & Poor’s Corporation or P- I by Moody’s Commercial Paper Record. The City’s policy is to invest in instruments or require collateral so as to not expose the City to credit, custodial credit, custodial concentration, interest rate, or foreign currency risks. Since the City complies with this law, it has no custodial credit risk for deposits.

At September 30, 2018, the bank balances, including time deposits, were fully insured by FDIC at all financial institutions.

Capital Assets

Capital asset activity for the year ended September 30, 2018, are as follows:

	Balance October 1, 2017	Additions	Deletions	Balance September 30, 2018
<u>Component unit-cost</u>				
Land	\$ 350,377	\$ 122,566	\$ -	\$ 472,943
<u>Total Component unit capital assets</u>	<u>\$ 350,377</u>	<u>\$ 122,566</u>	<u>\$ -</u>	<u>\$ 472,943</u>

Additions are due to improvements to the land. The costs include a survey of the land and preliminary cost of constructing a road and the actual road construction.

Long-Term Debt

On September 22, 2014, Redwater Industrial Development Corporation borrowed money from First National Bank of Hughes Springs for purchase of land in the amount of \$100,000. The note is payable in 120 monthly installments of \$1,036 at an interest rate of 4.5%. The loan was refinanced with a note payable from Bancorp South on October 12, 2017. The City borrowed \$200,000 which is payable in 240 monthly installments of \$1,107 at an interest rate of 2.93%. The additional funds were utilized for construction of a road and land improvements.

CITY OF REDWATER, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2018

Long-term debt transactions for the year ended September 30, 2018 are summarized as follows:

	Balance October 1, 2017	Additions	Retirements	Balance September 30, 2018	Due within one year

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENTAL AUDITING STANDARDS***

Independent Auditor's Report

Honorable Mayor and
Members of the City Council
City of Redwater, Texas

Members of the Council:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Redwater, Texas, (the City) as of and for the year ended September 30, 2018, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated August 6, 2019.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Redwater, Texas' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

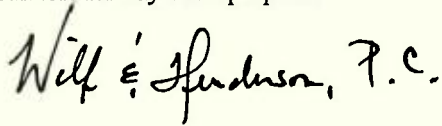

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
